**We may not guarantee free shipping to remote areas.**

We can ship your order several different ways.

**UPS Ground** - For small and large orders, this is an excellent way to go. If you are in our one or three day zones, then you can use this method of shipping.

**Greyhound Package Express** – Small and large orders work well with this method. The shipping rate is \$0.30 per pound with a \$30 minimum charge. Even though the customer must pick-up the order at the nearest Greyhound bus station, it may be the fastest way to ship to your location.

**Delta Airlines and Southwest Airlines Cargo** – Larger orders and long distances are recommended for air cargo. The minimum charge is \$75.00 and the customer would have to pick-up the order at the airport. West Coast residents would most likely use this method with larger orders.

### Box and Dry-Ice

There is a minimum \$10.00 per box charge on all orders. Boxes can hold up to 50lbs. of product. Dry-Ice is included in this charge.
